S1-Symposium: Innovative ceramic syntheses, processing and shaping

S2-Symposium: Thermal processes and advanced sintering

S3-Symposium: Additive manufacturing

S4-Symposium: Advanced structural ceramics, composites and architected materials

S5-Symposium: Refractories, high and ultra-high temperature ceramics

S6-Symposium: Ceramics and sustainable development

S7-Symposium: Glass-ceramics and glasses

S8-Symposium: Functional ceramics

S9-Symposium: Ceramics for energy conversion and storage, chemistry and environment

S10-Symposium: Bioceramics, composites and bioactive glasses for healthcare

S11-Symposium: Ceramics and inorganic materials for building applications

S12-Symposium: Advanced characterization techniques

SS13-Satellite Symposium: Ceramics and glass in cultural heritage and art

SS14-Satellite Symposium: ACerS-ECerS joint symposium

SS15-Satellite Symposium: Clinical Applications of Ceramics and Technologies in Dentistry

SS16-Satellite Symposium: Funglass Symposium - Functional and Surface functionalized Glasses
